

L2 Hosted PBX

Ultimate Flexibility

Nothing matches Hosted PBX for companies with an outside sales force, multiple locations, remote workers or work from home employees.

100% Scalable

As your business expands, easily upgrade your service with a quick call to your Account Manager.

Security and Reliability

With geographically redundant server locations in New York City and Los Angeles and carrier-class equipment with backup power systems and secure faclities, Layer2 offers unmatched reliability for your company's mission-critical communications.
