

L2 Wi-Fi

Did your Wi-Fi deployment include customized signal mapping and proof of concept testing prior to installation?

Why Not?

Simply Better Wireless Connections

We innovate across wireless technology to meet industry-specific needs. And we provide high-performance, secure, reliable access to applications and services no matter how tough the environment.

Layer2 offers a complete line of high-performance access infrastructure, including Wi-Fi controllers and access points, wired Ethernet switching,

When Connectivity Really Matters

SmartMesh wireless meshing technology to eliminate the costly, cumbersome task of pulling Ethernet cables for every access point

State-of-the-art security, from 802.1x to Dynamic Pre-Shared Keys, with all the latest encryption and authentication mechanisms you'd expect — but made simple to manage

Simple, flexible management for ten or ten thousand APs with Ruckus appliance-, virtual-, and cloud-managed options
